COVID-19 Statement from the RTB

As we all continue to monitor the novel coronavirus COVID-19, we want to make you aware of the measures we have implemented to safeguard the health of those visiting, rehearsing, attending a production or taking a class at the RTB.

In addition to our regular practices and weekly, contracted professional cleaning services, we are spraying down all contact surfaces in our theater, rehearsal spaces and public areas, including seats, counters, railings, door handles, sink faucets, etc. This includes before and after every performance, rehearsal or class.

Our RTB Kids will use hand sanitizer upon checking in, before they sign in and start a session. Please reinforce handwashing practices with your families; as we are all well aware, handwashing goes a long way!

Our actors, staff and volunteers will also follow these guidelines, as we all pitch in to control infection.

We are following the guidelines from the CDC and the Town of Ridgefield Health Department as we all stay informed about the current situation. The RTB will follow the town’s lead when it comes to canceling performances and classes. The home page of our website will have the latest updates.

We encourage everyone to follow the guidelines from the CDC. Here are some helpful links for information regarding COVID-19:
